

Need Your OSHA 10-HOUR Card?

SPACE IS LIMITED!

Workers on all public projects are required to have 10 hours of federally approved safety training.

In addition, many organizations are simply requiring that *all* workers on job sites have proof of safety training, even on private jobs. *It's all in the name of safety.*

Don't get caught in a situation that may cause you to lose your next job.

Be prepared. Get trained.

INSTRUCTOR

Herb Dohr brings over twenty five years of experience in the environmental health and safety industry. He formed Health and Safety Resources in June of 2007 to meet the growing needs of the construction industry. Mr. Dohr also provides on-site consultation and safety oversight for the construction industry.
